

**George Randell Moshos**  
**PA-C, F-ABMDI**  
**Physician Assistant**

George Randall (Randy) Moshos is a board certified physician assistant whose 24 year history in medicine and the forensic sciences have won him both national and international recognition. He is a graduate of the Long Island University Physician Assistant Program and has been honored by his peers and associates with multiple awards for his achievements both as a physician assistant, educator, and forensic scientist.

Mr. Moshos established his career in the New York metropolitan area as a physician assistant in general practice medicine, before moving into the fields of forensic science, orthopedic surgery and pain management. During his distinguished career, Mr. Moshos has practiced in Washington, DC, as well as Boston, Massachusetts, before returning home to the Jersey Shore. He has taught multiple courses for medical, legal, law enforcement, and forensic science professionals both within and outside the United States, and has been honored with adjunct faculty appointments with several physician assistant and nursing programs. Most recently he has served on the faculty of the masters program in biomedical forensic science at the Boston University School of Medicine.

When he is not at work caring for patients, Mr. Moshos enjoys lecturing and teaching forensic science, as well as participating in activities such as cycling, rollerblading and snowboarding.

WHERE PAIN ENDS...LIFE BEGINS
